

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

PARETO SICAV - PARETO NORDIC ALPHA - a sub-fund of PARETO SICAV

class A NOK (LU1471696044)

Management Company: FundRock Management Company S.A.

Objectives and investment policy

The objective of the sub-fund is to achieve capital appreciation over the medium term.

The sub-fund invests primarily in listed company shares (equities) and related securities in the Nordic region. Up to 15% may also be invested in Western Europe and the US.

The sub-fund will focus on the following sectors:

1. oil and marine,
2. pulp and paper
3. telecom and information technology,
4. financial services,
5. consumer products.

The sub-fund has a long/short investment strategy. This involves seeking to take:

1. long positions in securities (buy securities) that are expected to increase in value and then sell them at the increased value; and
2. short positions in securities (sell securities) that are expected to decrease in value and then buy them back at the lower value.

Short positions will only be taken through investment in financial derivative instruments (FDI), in particular total return swaps (TRS) and contracts for difference (CFD).

The aim of this strategy is to minimize exposure to the market in general and generate a return regardless of market conditions.

By using derivatives, the sub-fund will receive the performance of the underlying asset without owning them. In this way the sub-fund can get short exposure to equities to try to net off its long exposure through direct investments.

The sub-fund may also invest in FDIs for investment purpose and risk management.

Ancillary liquid investments (e.g. deposits, money market instruments) could comprise up to 30% of NAV. A minor part of the NAV may also be invested in debt securities (e.g. government securities, bonds, certificates of deposit generally at least of investment grade).

The sub-fund is actively managed without reference to a benchmark.

The currency of the share class is NOK.

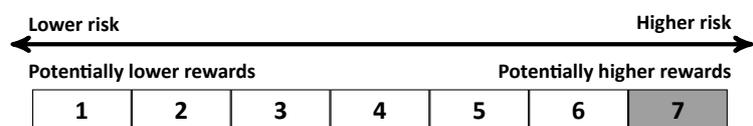

Under normal circumstances, you may sell your shares any day on which banks are open for business in Luxembourg, Norway and Sweden, except 24 December.

These shares are capitalisation shares. Income and capital gains are reinvested.

Recommendation

This sub-fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and reward profile

What does this synthetic risk and reward indicator mean?

- The shares of class A NOK are classified in category 7 because the value of the share may be subject to high variations and consequently the risk of loss and the opportunity of gain may be high.
- The risk category has been determined using the maximum risk limit allowed for this share class. The risk category may not be a reliable indicator of the share class's future risk profile. The risk category shown is not guaranteed and may change over time.
- The seven-category scale is complex, for example 2 is not twice as risky as 1. The gap between 1 and 2 might not be the same as the gap between 5 and 6. A category 1 sub-fund is not a risk-free investment - the risk of losing your money is small, but the chance of making gains is also limited.

Which materially relevant risks are not adequately captured by the synthetic risk and reward indicator?

- Liquidity risk: low liquidity might result in that it would be difficult or impossible to buy or sell an investment instrument in a timely manner and that the price could be lower or higher than expected.

- Credit risk: the sub-fund invests directly or indirectly in interest bearing instruments, for example bonds. If an issuer of such an instrument cannot pay interest or the nominal amount at maturity, the investment can lose some or all of its value.

- The sub-fund may use derivatives. Due to their structure, the risk associated with these investment instruments may have a larger impact on the value of the sub-fund, than buying the underlying stock or investment instrument directly.

- Counterparty risk: the risk that a counterpart does not fulfill its obligations to the sub-fund (e.g. not paying an agreed amount or not delivering securities as agreed).

- Currency risk: the sub-fund may hold some of its investments in currencies other than the sub-fund's reference currency. Thus the value of the sub-fund may rise and fall due to currency movements.

- Operational risk: the risk of loss resulting from e.g. system breakdowns, human errors or from external events.

How can I get more information about the risks of the sub-fund?

Additional information concerning the risks of investment is indicated in the corresponding sections of the prospectus of the fund.

Charges

The charges you pay are used to cover the running costs of the sub-fund, including the costs of marketing and distribution of shares. These charges reduce the potential increase in value of an investment in this sub-fund.

One-off charges taken before or after you invest	
Entry charge	3.00%
Exit charge	0.20%
This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing charge	1.72%
Charges taken from the fund under certain specific conditions	
Performance fee	20% above 2% cumulative hurdle with high watermark

The entry and exit charges shown correspond to a maximum percentage which might be deducted from your capital invested into the sub-fund. In some cases you might pay less. You may contact your financial advisor or intermediary to be informed on the actual entry and exit charges.

The conversion of some or all of the shares into shares of another sub-fund or another share class is free of charge.

The ongoing charges relate to the annual charges; they were calculated on 31.12.2020. The ongoing charges may vary from year to year.

The figure of the ongoing charges excludes:

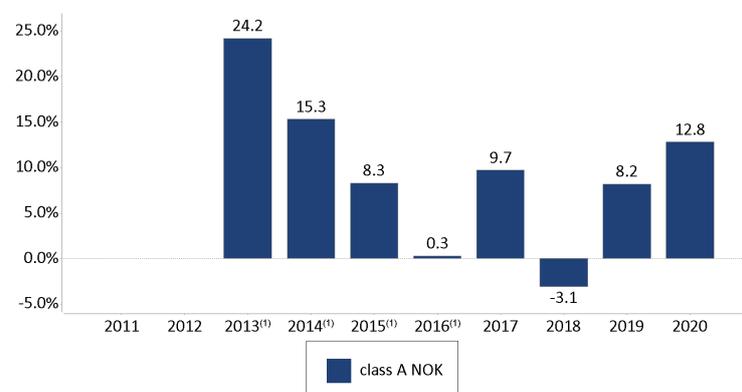

- Performance fee
- Securities transaction charges, except for the charges related to the purchase and the sale of target funds.

The performance fee invoiced for the share class for the most recent business year amounted to 2.56%.

For further information concerning charges, please consult the heading "Fees and Expenses" of the fund's prospectus.

Additional information concerning the performance fee is also available in the prospectus.

Past performance

(1) The past performance shown until 2016 are those of Pareto Nordic UCITS plc - Pareto Nordic Alpha A (IE00B5NDFJ47) created in 2012.

All charges and fees, except for the entry and exit charges, were taken into account.

The past performance is calculated in NOK.

Past performance is not a reliable indicator of future results.

This sub-fund was launched in 2017 by the merger of the Irish sub-fund Pareto Nordic UCITS plc - Pareto Nordic Alpha. The share class was launched in 2017.
