Dealing days: all coinciding banking days in Norway and Luxembourg

Domicile: Luxembourg
Management company: FundRock Management Comp. S.A.
Investment manager: Pareto Asset Management AS
Custodian:
Skandinaviska Enskilda Banken AB (publ) Luxembourg Branch

Share class A

Launch date: 26 October 2015
NAV as at 31 August 2021: 1 220.18
NAV currency: NOK
Minimum investment: n.a.
ISIN: LU0922130215
Bloomberg ticker: PARHYNA LX

Corporate bonds with underlying credit risk, exposure primarily to Nordic corporations and financial institutions.

- The sub-fund invests in debt securities issued predominantly by corporations, agencies, governments and municipalities with a presence in the Nordic region
- The debt securities primarily include corporate bonds, but also subordinated, hybrids and convertible bonds. Investments are expected to give the fund a higher risk and return than traditional interest-bearing financial instruments
- The average interest duration shall be between 0 and 4 years

Monthly commentary – August 2021

By Øyvind Hamre and Thomas Larsen

August was another good month for Nordic high-yield bonds and Pareto Nordic Corporate Bond (PNCB). The favourable risk sentiment globally continues and seems to be little affected by the rising number of Covid-19 cases and increasingly negative focus on certain sectors and businesses in China. In the Nordic region, both primary and secondary market activity has picked up significantly after the summer break.

We increased our exposure in several of our existing holdings in addition to gaining exposure to six new issuers where we had no previous exposure. We want to reiterate that we are highly selective when adding new names to the portfolio, considering buoyant markets with compressed credit spreads and default rates kept low by expansionary monetary and fiscal policies. Our long-term investment philosophy remains intact, which is to invest in quality companies with long-term viable business models and sound credit profiles at an attractive risk-adjusted expected return. PNCB has not been exposed to any major credit events in 2021.

Primary market activity was low in the first half of the month, as usual, due to the holiday season. However, activity picked up significantly in the second half of the month with 11 issuers tapping the market for the equivalent of NOK 17 billion for the month overall. There was only one inaugural bond issuer in August (Øyfjellet Wind Investments). Note that there were launched a significant number of transactions in August which were not closed by the end of the month, paving the way for a busy start of September which we expect will be another month with high new issue volumes.

PNCB participated in five new issues spread across shipping (Wallenius Wilhelmsen), renewable energy (Øyfjellet Wind Investments), industry (Bewi), TMT (Cegal), and real estate (Castellum). Three of the issuers were existing holdings, while Øyfjellet Wind Investments and Castellum were new holdings. In addition, we have added four new names to the portfolio in the secondary market: Norlandia (public services), Momox (re-commerce), Merlin Entertainments (amusement parks), and Beerenberg (energy services).

The portfolio continues to have a conservative profile in the Nordic high-yield market with a broad sector diversification, limited single name exposure and balancing of liquidity against best possible relative value. We believe the portfolio is well positioned to weather all sorts of market environments with its solid liquidity position, low interest rate risk and low credit duration.
