The Fund is exposed to the following materially relevant risks: liquidity risk, currency risk, derivatives risk, counterparty risk, operational risk and sustainability risk. Please refer to the Fund's prospectus for further information about the fund's risk exposure. The Fund promotes environmental and/or social characteristics within the meaning of Article 8 of SFDR. The decision to invest in the Fund should take into account all the characteristics or objectives of the Fund as described in its prospectus. Further information about the sustainability-related aspects of the Fund is available in the SFDR pre-contractual disclosures in the Fund's prospectus and the SFDR website disclosure available on <https://paretoam.com/en/our-funds/>.

\*From launch of the share class. All figures are based on internationally recognised standards for publishing performance data. Historical returns are no guarantee for future returns. Future returns will depend, inter alia, on, market developments, the portfolio manager's skill, the fund's risk profile, as well as fees for subscription, management and redemption. Returns may become negative as a result of negative price developments. The performance data do not take account of the fees incurred on subscription and redemption of units/shares.

By: Christian Weldingh og Gustaf Tegell

March was a strong month for the Nordic credit markets, marking the end of a solid first quarter for Pareto Nordic Cross Credit. The fund's return for the month and the first quarter ended above the fund's coupon income, as credit spreads continued to tighten in the Nordic as well as the European and US markets. Market interest rates were relatively stable throughout the month and had little impact on the fund's performance.

Issuance activity continued at a good pace and March was an active month for PNCC. Bonds totalling approximately NOK 730 million were traded, evenly divided between purchases and sales. We participated in nine issuances in well-known Nordic companies. The most important portfolio adjustments in February were the additions of Pelagia (seafood), Jotun (paint and coating) and NIBE industrier (indoor climate solutions). Three new issuers for the fund were also added: Electrolux Professional, Husqvarna and Lantmannen.

Electrolux Professional was spun-off from the Electrolux group and listed as an independent company in 2020. The company is one of the leading global providers of food service, beverage, and laundry solutions. It serves a wide range of customers globally, from restaurants and hotels to healthcare, educational and other service facilities.

Husqvarna AB manufactures outdoor maintenance and recreational products. The company produces chain saws, trimmers, blowers, lawn mowers, tillers, generators, snow blowers, stump grinders, and utility vehicles. The products are sold worldwide, with a focus on Europe, North America, and Asia.

Lantmannen operates as an agricultural cooperative. The company produces and supplies seeds, fertilisers, and plant protection pesticides, specialising in agriculture, machinery, bioenergy, and food products. Lantmannen serves clients in Europe.

On the sell side our holding of AAA-rated covered bonds was reduced somewhat during the month. We also exited Telenor (telecommunications) and Cibus Nordic Real Estate.
