What is this product?

Type

Investment Company (SICAV), Luxembourg

Term

This sub-fund has no maturity date. However, the board of directors may decide to close the sub-fund under certain circumstances.

Objectives

The sub-fund aims to achieve the highest possible return, relative to the risk taken by the sub-fund.

The sub-fund invests in fixed income and fixed income related securities issued by corporations, agencies, governments and municipalities. The securities primarily include corporate bonds, but also subordinated and covered bonds. Investments are expected to give the sub-fund a higher risk and return than traditional interest-bearing securities.

The sub-fund qualifies as an Article 9 product under SFDR since its investment strategy contains ESG objectives.

The sub-fund's investment objective is to create long-term positive return relative to its risk profile, by investing in companies enabling the sub-fund to maintain a decarbonization trajectory. All of the sub-fund's investments are subject to strict exclusion criteria limiting the sub-fund's investment universe not to include among others holding companies that generate a significant amount of Green Gas Emissions contributing to accelerate global warming and temperature rising as such investments do not contribute to the sustainable objective of the sub-fund. The sub-fund's inclusion criteria further limit the sub-fund's investment universe by establishing criteria that the holding companies must comply with in order to be eligible for investment. Some inclusion criteria are made to specifically ensure that the holding companies are able to have a long-term positive impact on the Sub-Fund's sustainable investment objective.

The sub-fund will not make investments which constitute an unacceptable risk that we may contribute to unethical acts or omissions. In addition, the sub-fund must comply with the requirements of the Nordic Swan Ecolabel and will pick companies based on the positive inclusion criteria. More information on how the Investment Manager implement ESG issues in its investment analysis and decision-making process can be found at its website <https://www.paretoam.com>.

The sub-fund has a global investment universe, but invests predominantly in developed markets.

The average duration shall be between 0 and 7 years.

The sub-fund may use financial derivative instruments (FDI's), such as forward rate agreements, futures, options, swaps, CDS (Credit Default Swaps) and other derivatives for both hedging and investment purposes.

Benchmark: The portfolio is actively managed on a discretionary basis without reference to a benchmark.

Intended retail investor

This product is available to individual clients investing the minimum subscription amount or subscribing through distributor/pension scheme and Pareto entities or employees who want to assume credit and interest free risks, seek capital appreciation and are willing to take on the increased risk associated with the investment. This product may not be appropriate for investors who plan to withdraw their money within 3 years.

Other information

Depository: Skandinaviska Enskilda Banken. AB (publ) – Luxembourg Branch

Dividend income: This class is a capitalisation class meaning that income is reinvested.

Conversion right: The investor has the right to convert his investment in shares in one sub-fund for shares in the same sub-fund or in another sub-fund. The investor can obtain information about how to convert in the prospectus of the fund.

Segregation: The assets and liabilities of a sub-fund are segregated pursuant to the law so that the commitments and liabilities of one sub-fund do not affect the other sub-funds.

Additional information: Additional information about the fund, copies of its prospectus, the latest annual and semi-annual report and the latest prices of shares may be obtained free of charge from the management company or on www.fundrock.com/funds/. The prospectus and the periodic reports are prepared for the entire fund and are available in English. The management company may inform you about other languages in which these documents are available.

This sub-fund was launched in 2015 and this share class in 2020.

The reference currency of the sub-fund is expressed in SEK. The currency of the share class is expressed in GBP. For this share class, the foreign-exchange risk of the share currency is systematically hedged against the sub-fund's reference currency.

What are the risks and what could I get in return?

Risk indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact our capacity to pay you.

Be aware of currency risk. You may receive payments in a currency that differs from your reference currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The sub-fund is also exposed to the following materially relevant risks that are not included in the summary risk indicator: Credit risk, Liquidity risk, Currency risk, Derivative risk, Counterparty risk, Operational risk, Sustainability risk.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

Recommended holding period: 3 years Example investment: 10,000 GBP		If you exit after 1 year	If you exit after 3 years (recommended holding period)
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	6,180 GBP	7,810 GBP
	Average return each year	-38.2 %	-7.9 %
Unfavourable	What you might get back after costs	8,780 GBP	8,760 GBP
	Average return each year	-12.2 %	-4.3 %
Moderate	What you might get back after costs	10,120 GBP	10,370 GBP
	Average return each year	1.2 %	1.2 %
Favourable	What you might get back after costs	11,670 GBP	11,490 GBP
	Average return each year	16.7 %	4.8 %

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and of a suitable benchmark over the last 11 years. Markets could develop very differently in the future.

Unfavourable scenario: This type of scenario occurred for an investment between March 2017 and March 2020, by referring to a reference class.

tween March 2017 and March 2020, by referring to a reference class.

Moderate scenario: This type of scenario occurred for an investment between October 2015 and October 2018, by referring to a reference class.

Favourable scenario: This type of scenario occurred for an investment between March 2020 and March 2023, by referring to a reference class.

The stress scenario shows what you might get back in extreme market circumstances.

What happens if FundRock Management Company S.A. is unable to pay out?

The Management Company is responsible for administration and management of the sub-fund, and does not typically hold assets of the sub-fund (assets that can be held by a depositary are, in line with applicable regulations, held with a depositary in its custody network). The Management Company, as the PRIIPS manufacturer has no obligation to pay out since the product design does not contemplate any such payment being made. However, investors may suffer loss if the sub-fund or the depositary is unable to pay out. There is no compensation or guarantee scheme in place which may offset, all or any, of this loss.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding period we have assumed the product performs as shown in the moderate scenario
- 10,000 GBP is invested

	If you exit after 1 year	If you exit after 3 years
Total costs	203 GBP	427 GBP
Annual cost impact (*)	2.0 %	1.4 % each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 2.6% before costs and 1.2% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount. These figures include the maximum distribution fee that the person selling you the product may charge (0.0% of amount invested / 0 GBP). This person will inform you of the actual distribution fee.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	0.5% of the amount you pay in when entering this investment.	50 GBP
Exit costs	0.5% of your investment before it is paid out to you.	50 GBP
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.7% of the value of your investment per year. This is an estimate based on actual costs over the last year.	75 GBP
Transaction costs	0.3% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	28 GBP
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	0 GBP

The conversion of part or all of the shares is free of charge.

How long should I hold it and can I take money out early?

Recommended holding period: 3 years

You should be prepared to stay invested for 3 years. However, you can redeem your investment without penalty at any time during this time, or hold the investment longer. Redemptions are possible on each full bank business day in Luxembourg. In exceptional circumstances, your right to request the redemption of your investment may be limited or suspended.

How can I complain?

Complaints about the behaviour of the person who advised you on the product or sold it to you, should be addressed directly to that person. Complaints about the product or the behaviour of the manufacturer of this product should be directed to the following address:

Postal address: FundRock Management Company S.A., Attention: Complaints Handling, Airport Center Building, 5 Heienhaff, L-1736 Senningerberg, Grand Duchy of Luxembourg.

E-mail: FRMC_qualitycare@fundrock.com

Website: <https://www.fundrock.com/policies-and-compliance/complaints-policy/>

In all cases, the complainant must clearly indicate his/her contact details (name, address, phone number or email address) and provide a brief explanation of the claim.
